

SGB PROJECT SERVICES ENSURE TOTAL SITE SAFETY AND ACCESS IS WITHIN EASY REACH.

With a safety record that sets the standard for the industry and recognised expertise in areas like planning, logistics, cost management and training, it's hardly surprising that SGB Project Services is the first name people think of when it comes to safe powered access solutions. Our dedicated team of specialists offer a unique range of powered access solutions including Mastclimbers™, Transport Platforms, Cradles, Booms, Scissors and Rail Booms to ensure safe, secure and effective working conditions in the construction and maintenance sectors. Naturally, we can also provide full IPAF training and an on-site survey to determine exactly what equipment is required for the job in hand.
